Calvin Tyndall

Staff Software Engineer | Problem-Solver | Communicator

1762 Martini Way Qualicum Beach BC **|** 778.269.3955 **|** higher.level@gmail.com | calvint.com

Profile

Creative technologist with 20+ years of experience designing and delivering custom web applications. I build full-stack solutions and know the entire product lifecycle. I thrive on problem-solving, communication and creating systems that scale.

What sets me apart?

"Full Stack" is trendy but I'm actually an End-to-End developer. From sales to service, server to the CSS.
